QUESTION 07. [10 Marks]

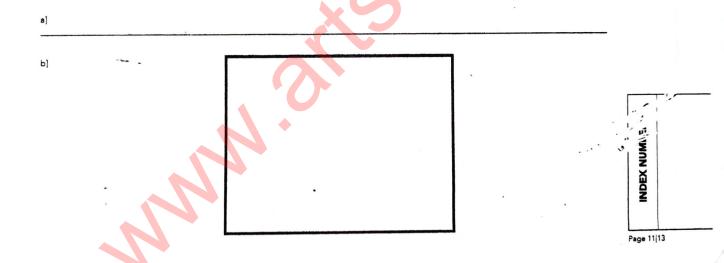

Public Utilities Commission of Sri Lanka (PUCSL) has announced the implementation of a national standard for electricity power outlets and plugs for non-industrial premises in Sri Lanka to strengthen the safety of electricity consumptions in the country. According to the newly introduced standards the type G plugs and outlets, commonly known as 13 ampere square pin type would be the national standard from August 2016, Furthermore, the PUCSL has announced the public to switch to the new standards for achieving a higher quality in electricity consumption.
